

Net-O2 demonstrating Carrier Ethernet testing solutions for service providers

Description

Chennai, India - Sep 21, 2009 -- Net-O2 Technologies Is Participating In The Carrier Ethernet World Congress 2009, Being Held At Maritim Proarte Hotel, Berlin, Germany From September 21 To 24.

Net-O2 Technologies Will Be Demonstrating Its Attest-Mef Test Solutions Which Aid Network Service Providers (Nsps) Prepare For Mef Certification Of Carrier Ethernet Services.

Net-O2 Automated Test Suites Have Been Licensed By More Than 50 Network Equipment Manufacturers Globally. The Test Solutions For Carrier Ethernet Include:

Attest-Mef Certification Test Suites

Attest-Cts Conformance Test Suites

Attest-Xp Functional Test Suites

These Test Solutions Enable Network Service Providers (Nsps) And Network Equipment Manufacturers (Nems) Be Better Prepared For Roll-Out Of Carrier Ethernet Services.

Also, At The Cewc Conference, Manikantan Srinivasan, Cto, Net-O2 Technologies Will Be Making A Presentation Titled "Tools To Facilitate Ethernet Access Service Purchase And Sale", During Interconnect- In-Depth, Being Conducted By Mef.
