

Veryx Adjudged By Intel® Network Builders To Its Winners' Circle

Description

The Hague Oct 8, 2018 - Veryx Technologies (www.veryxtech.com) Has Been Selected For The Solution Plus Category Of The Intel® Network Builders Winners' Circle Contest. The Program, Opened In January Of This Year By Intel Network Builders Ecosystem, Has Recognized The First Of Its Biannual Finalists At Intel Network Builders Summit, In Conjunction With The Sdn Nfv World Congress 2018.

To Quote From The Blog Post By Chandresh Ruparel, Director Of Ecosystem Strategy And Intel Network Builders:

“The Goal Of The Winners' Circle Is To Deliver Technical Leadership, Advance Open Source Standards, And Collaborate With End Users To Drive Innovation. Requirements For Selection To The Intel Network Builders Winners' Circle Included Open Source Contributions, Published Benchmarks And Deployments To Communication Service Providers (Commsps).”

“Intel® Select Solution For Nfvi Is A Verified And Workload-Optimized Network Solution That Simplifies And Accelerates The Process Of Selecting And Deploying Necessary Hardware And Software. Commitment To Deliver A Verified Intel Select Solution Was A Key Criteria In Arriving At The [Winner's Circle Finalists](#) Announced During Sdn Nfv World Congress.”

Veryx Vprobe Is A Dpdk Capable Test Probe, A Component Of Samtest® Which Supports Activation, Monitoring, And Diagnostics For Network Services Based On Nfv And Sdn Capabilities. Veryx Vprobe Could Be Used For Benchmarking Of A Virtualized Network In The Lab Or In Pre-Deployment Production Network Verification. The Vprobe Can Be Used For Vnf- Or Vm-Based Service Activation, Monitoring, On-Demand Measurement, And Trouble Shooting. It Provides Both Active And Passive Performance Management Capabilities. Veryx Vprobes In The Network Are Managed By A Samtest Controller, Which Provides Centralized Comprehensive Test And Monitoring Capabilities.

About Veryx

Veryx Technologies Is A Provider Of Innovative Testing, Automation, And Monitoring Solutions For Network Service Providers, Cloud Service Providers, Data Centers, Enterprises, And Network Equipment Vendors. Veryx Offers Solutions For Network Testing, Visibility, Performance Monitoring, And Equipment Testing Applications For Technologies Such As Carrier Ethernet, Ip, Cloud, Iot, Nfv, And Sdn.

About Intel® Network Builders

Intel Network Builders Is An Ecosystem Of Independent Software Vendors (Isvs), Operating System Vendors (Osvs), Original Equipment Manufacturers (Oems), Telecom Equipment Manufacturers (Tems), System Integrators (Sis), Enterprises, And Service Providers Coming Together To Accelerate The Adoption Of Network Functions Virtualization (Nfv)-Based And Software-Defined Networking (Sdn)-Based Solutions In Telecom Networks And In Public, Private, And Hybrid Clouds. The Intel Network Builders Program Connects Service Providers And Enterprises With The Infrastructure, Software, And Technology Vendors That Are Driving New Solutions To The Market.
