Clarification About Log4J Vulnerability In Veryx Products

About The Log4J Vulnerability

There Are Two Reported Security Flaws With Log4J In The Apache Log4J2 Java Library: [Cve-2021-44228](#) And [Cve-2021-45046](#). For The Most Up-To-Date Information On The Log4J Vulnerability, We Suggest Resources Such As [This Guidance Webpage](#) From The Us Government's Cybersecurity & Infrastructure Security Agency, Or [This Security Alert](#) From The Uk Government's National Cyber Security Centre.

What We Are Doing

Veryx's Security And Response Teams Are Conducting A Thorough Review To Identify And Mitigate Vulnerabilities. If Any Impact Is Identified, We Will Notify And Deploy The Efforts Necessary To Neutralize The Potential Threat. Although Still Underway, Initial Analysis Does Not Present Discoveries Of Concern Nor Any Indications Of Exploitation Of This Vulnerability.

We Will Continue To Actively Monitor This Issue And Provide Updates.

If You Have More Questions Or Concerns, Please Reach Out To Veryx Customer Support.
