Veryx Introduces Samtest For Enterprise Wan Monitoring

Description

Veryx Technologies (Www.veryxtech.com) A Provider Of Network Visibility, Monitoring And Testing, Announced The Availability Of Veryx Samtest For Enterprise Wan Monitoring For Businesses.

Enterprises Running Mission Critical Applications Are Highly Dependent On The Reliability Of Wan Links Between Their Sites And Data Centers Or Cloud. Often Though Enterprises Invest In Expensive Bandwidth, The Reality Is That Unless They Monitor And Ensure The Performance Of These Links On A Continuous Basis, They Are Vulnerable To Face Performance Hits. Live Monitoring Of Interconnects Ensures That Downtime Is Minimized In Time-Sensitive Applications In Medical, Financial, Gaming, Retail, Media Etc.

Thus, While Cios Need To Be Sure That They Are Getting Rois From Wan Bandwidth Expenditure, It Teams Need To Ensure Their Mission Critical Operations Are Not Affected By Degradations Such As Latency, Jitter, Loss And Availability.

Unlike Traditionally Available Solutions, Samtest Performs Active Monitoring To Alert Degradation And Potential Faults Before They Occur, So Network Administrators Can Breathe Easier. Samtest Measures And Records The Real-Time Performance Of The Network With High Accuracy, Enabling Network Administrators To Take The Needed Corrective Actions Proactively And Quickly.

About Veryx:

Veryx Provides Innovative Testing, Visibility And Monitoring Solutions For Network Service Providers, Cloud & Data Centers, Enterprises And Network Equipment Vendors. Leading Service Providers And Equipment Vendors Rely On Veryx For Network And Equipment Testing, Performance Monitoring And Visibility, For Technologies Such As Carrier Ethernet, Ip, Iot, Cloud, Data Center, Nfv And Sdn.
