Veryx presents MEF Lifecycle Service Orchestration (LSO) at MPLS SDN World Congress 2015

Description

Presentation Will Cover How Sdn And Nfv Together With Lifecycle Service Orchestration Can Facilitate Delivery Of Agile And Dynamic Carrier Services In Accordance To Mef Third Network Vision

Fremont, Ca, Us – Veryx Technologies, A Leading Provider Of Innovative Test And Measurement Solutions, Today Announced That It Is Presenting A Session On The Topic 'An Overview Of The Mef's Emerging Lifecycle Service Orchestration As The Third Pillar, Together With Sdn And Nfv, Of The Third Network' At Mpls Sdn World Congress 2015 Conference Being Held In Paris, France On March 17.

"Veryx Samtest Is Capable Of Empowering Service Providers With High Levels Of Automation In Service Assurance Testing, Benchmarking And Monitoring – For Carrier Ethernet, Nfv And Sdn Environments", Said David Charlu, Ceo Of Veryx Technologies. "We Recognize The Criticality Of Service Agility In Global Networks And Are Happy To Be Part Of Mef's Third Network Initiatives To Achieve Various Management Capabilities Necessary To Support The Lso Vision", He Added.

In Her Session, Isabelle Morency, Vp Of Engineering At Veryx, Will Present An Overview Of A Key Concept Of Mef's Third Network Initiative – Lifecycle Service Orchestration (Lso). The Presentation Will Cover The Latest Developments In Lso That Must Occur To Enable Network Operators To Support On-Demand Service Provisioning.

The Seminar Features New Mef Work On The Implementation Of Sdn And Nfv Together With Lifecycle Service Orchestration To Accelerate The Implementation Of Agile And Dynamic Carrier Services And Improve Operational Efficiency Of Business Services In The Context Of The Third Network.
