Case Studies

“With our previous network, it would take between 6–7 hours daily to synch up connections between two locations. With Aryaka, it takes just 20 minutes to complete the same task.”

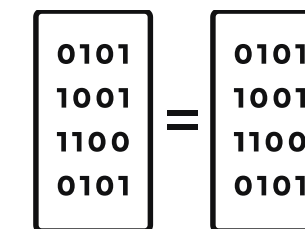

Glenn Hensley, IT Infrastructure Manager

Application Performance

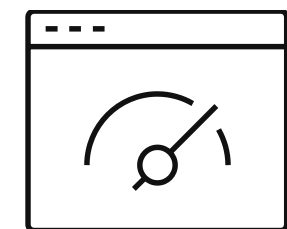

Performance Increase

Up to 20x for CAD and ERP Applications

Data Replication Times

6-7 Hours Down to 22 Minutes

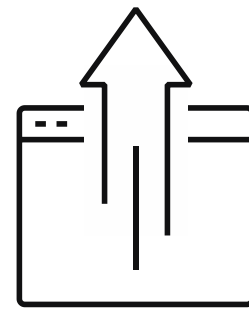

3-Day Deployment
of WAN infrastructure

“We’ve saved approximately 2-3 million dollars over a traditional MPLS solution...We’ve seen up to 20x increase in file transfer speed.”

Dustin Collins, CIO

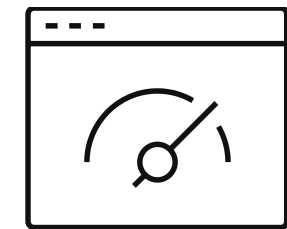

MPLS Migration

Performance Increase
Up to 20x for Office 365

\$2-3M Cost Savings over MPLS

78% Faster Deployment over MPLS
150+ global sites in 4 months

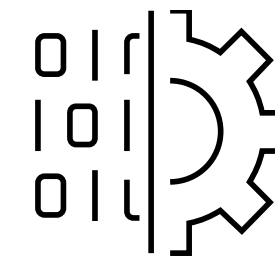

“Without the building blocks of a solid networking solution, you’re really limiting yourself on the vast technologies available to your organization – not only in how it can do business, but also how it integrates with customers, suppliers and other solutions.”

Mark Baker, CTO
