

## Value Proposition

Aryaka, the Cloud-First WAN company, brings agility, simplicity and a great experience in consuming the WAN as-a-service. An optimized global network and innovative technology stack deliver the industry's #1 managed SD-WAN service and sets the gold standard for application performance. Aryaka's SmartServices platform offers connectivity, application acceleration, security, cloud networking and insights leveraging global orchestration and provisioning. Aryaka's customers include hundreds of global enterprises including several in the Fortune 100.

## How We Help CIOs To Be Successful

Agility	Simplicity	Flexibility	Visibility
Activate new sites in days and new services in minutes	100% managed service with a consistent global SLA	Transport layer choice to connect seamlessly to sites, users and multi-cloud	Insights into the state of your WAN and applications
			
<b>WAN TRANSFORMATION</b>	<b>APPLICATION PERFORMANCE</b>	<b>END USER EXPERIENCE</b>	<b>BETTER ROI &amp; LOWER TCO</b>
90 Sites in 120 Days	Up to 55x Faster	Improved by 300%	Cost Savings > 50%

## Top Use Cases We Solve for Customers

## Why Customers Choose Aryaka

- **Fully Managed Service:** Simplified WAN management and orchestration with a single point of contact and a 99.99% reliable SLA.
- **Risk-Free Migration:** Fully managed migration from existing WAN infrastructure / MPLS to Aryaka.
- **Integrated Security (SASE):** Protect all users, devices, edge, core and cloud with an integrated solution.
- **Application Performance:** Improve any application on any device, anywhere: on-premises, private, public or hybrid cloud.
- **Flexibility:** Optimal connectivity path selection based on application performance, security and cost-efficiency requirements.
- **Remote & Mobile Users:** Extend secure and fast access for best application performance and user experience across your hybrid workforce.
- **Digital Transformation:** Simplify the WAN with a Cloud-First approach

## Benefits of Aryaka Cloud-First WAN

Key Benefits	What this means for the customer...
One Managed Service	Aryaka offers an integrated, fully managed SD-WAN service deployed on an optimized network, integrated edge devices and security with central orchestration for global and regional deployments
Operational Simplicity	Choice of connectivity for optimal path selection with a purpose-built Layer 2 Network, Internet, MPLS, and Hybrid WAN from a single vendor
Ease of Doing Business	Remove complexity of managing multiple contracts with different vendors
Great Customer Service	Single point of contact for all issues. No longer deal with multiple vendors.
World-Class Support	World-class 24x7x365 support from a leading, global service provider
Visibility and Insights	Central Management Portal for real-time visibility into the state of the WAN

## WHAT CUSTOMERS ARE SAYING ABOUT ARYAKA

Our vision and values are fueled by unbridled customer centricity and a passion to go above and beyond. With the rising popularity of multi-cloud solutions and the demands of predictable application performance globally, the Aryaka SmartServices platform and its portfolio of managed service

offerings are considered best-in-class and a gold standard across the industry, leading us to earn high net promoter scores. Not surprisingly, our technologies and services are now an important part of our customers digital transformation initiatives.

### Accelerate WAN Transformation

*"Without the building blocks of a solid networking solution, you're really limiting yourself on the vast technologies available to your organization – not only in how it can do business, but also how it integrates with customers, suppliers and other solutions."*

**Mark Baker, CTO, Pilot Freight Services**

[DOWNLOAD CASE STUDY](#)

### Adopt Cloud Architectures

*"With nearly 80% of our WAN traffic used for cloud and SaaS applications, it was apparent we needed to look at an SD-WAN solution as part of our digital transformation strategy," said **Shin Sterneck, Head of Global Network and Telecommunication Services at TÜV Rheinland**, "What's more is when we tried to open new locations in remote geographies across the Middle East, China and India, we began to experience poor customer service, longer lead times and higher costs from the MPLS providers in charge of servicing those sites."*

### Boost Application Performance

5X Accelerated Global Application Performance and \$50K Euro Cost Savings

*"We chose Aryaka because of the speed of deployment, the simplicity it brings, and the massive cost reduction compared to MPLS. Aryaka has been a great partner that adapts to our business needs and helps us continue to grow at an effective pace."*

**Bruno Stuart-Torrie, IT Application and Support Director, Amplexor**

[DOWNLOAD CASE STUDY](#)

## Drive Operational Simplicity

*"One of the things that we really like about our partnership with Aryaka is that they're flexible to help us when we need them. As our business requirements change and our infrastructure requirements change, Aryaka has been flexible to meet those requirements."*

**Stan Yarbrough, PH.D, Sr. Global IT Architect, Element Solutions**

[DOWNLOAD CASE STUDY](#)

## Ease of Doing Business

*"HMSHost International is constantly expanding, going to where our customers need us around the world. Not only has our business outgrown MPLS, WAN connectivity has become increasingly important due to cloud technology."*

**Dennis Hoogreef, Vice President IT & Facilities International at HMSHost International.**

## World Fuel Services Selects Aryaka for Digital Transformation

[Learn More](#)

*"When evaluating vendors for this project, we wanted to see cost efficiencies, last mile management, low latency access to multiple cloud services, and the ability to accommodate all of our diverse global locations. What's more, Aryaka was the only vendor who met all of our technical requirements, while also being a strong cultural fit."*

**Richard Delisser, Vice President of Global Infrastructure at World Fuel Services.**
